

ULTRA LIFT^{T.M.}

High Performance Powered Hand Trucks

Ultra Lift supplies the power—so you don't have to. One person can safely and easily handle loads that usually require 2 or 3 people, even up or down stairs. Two people can handle most loads to 1500 pounds. If safety is your concern, **Ultra Lift** is the best move you'll ever make.

Operator Safety

Injuries can be virtually eliminated. **Ultra Lift** does the lifting so that operator effort required to complete a move is minimized. Heavy loads are broken back with ease. The operator stays in control by using a combination of motor power, balance, and leverage in every phase of the move.

Reduce Labor Costs

Fewer people are required for any move with **Ultra Lift**. Manpower can be scheduled more productively. Labor savings often pay for the **Ultra Lift** in one month.

Eliminate Damage

Loads are broken back, set down and moved under power with maximum leverage and operator control. Gentle handling eliminates bumps, bounces and damage to the load and premises.

Increase Profits

Increased operator safety, reduced labor cost and elimination of damage to the load and premises all contribute to significant increases in profits.

Up & Down Stairs

4 Wheel Dolly Move
